

ASHA INTERIORS

MIDDLE-CLASS BUDGET EXPERTS • NO HIDDEN COSTS • TRANSPARENT EXECUTION

The Complete Middle-Class Home Renovation Roadmap

A Smart Framework to Plan Your Budget, Stop Price Escalation, and Avoid Local Contractor Traps

1. The Middle-Class Reality: Why Renovation Costs Run Away

For an Indian middle-class family, renovating a 2BHK or 3BHK flat is a major emotional and financial milestone. However, statistics show that over 75% of home renovation projects face budget inflation. A project starting with a ₹16 Lakh quote easily crosses ₹18.5 Lakhs.

At **Asha Interiors**, we have studied these common issues to build a clear, completely transparent zero-escalation checklist specifically designed for budget-conscious homeowners.

2. Budget Architecture: Where Every Rupee is Spent

40% - 45%

CIVIL & STRUCTURAL

3. Every Tiny Detail: The Micro-Granular Renovation Checklist

Renovation Area	Every Tiny Detail Included (Zero Hidden Items)	Middle-Class Budget Weight
1. Civil Work & Flooring	Old tile chipping, waterproofing, anti-skid floor tiles, kitchen granite replacement, debris disposal via trucks.	20% - 25%
2. Electrical & Utility Infrastructure	Concealed wall cutting (Zari work), FR copper wires (Polycab/Finolex), dedicated modular loops for kitchen appliances, MCB box setup.	10% - 12%
3. Walls, Painting & Ceilings	Anti-fungal treatment on damp areas, 2 coats putty, 1 coat primer, 2 final coats washable acrylic emulsion, localized gypsum ceilings.	12% - 15%
4. Kitchen & Modular Wardrobes	BWP commercial-grade plywood for kitchen carcass, PVC edge-banding, anti-scratch laminates, SS304 soft-close wire baskets, hydraulic lifters.	25% - 30%
5. Plumbing & Sanitary Ware	Replacing leaking CPVC pipelines, installing premium taps, divertors, wall-mounted commodes, under-sink waste coupling, exhaust fans.	8% - 10%
6. Doors, Windows & Hardware	Main door laminate pressing, multi-bolt security locks, water-resistant solid flush doors for bathrooms, magnetic door catchers.	5% - 7%
7. Site Handling & Deep Cleaning	Temporary site protective packing sheets, transport loading/unloading, chemical deep cleaning to remove paint/grout stains before handover.	3% - 5%

TRIGGER 1: THE "LUMP-SUM ESTIMATE" TRAP VS DETAILED BOQ

Most contractors give vague single-line verbal quotes. **Asha Interiors** destroys this problem by using a detailed Bill of Quantities (BOQ) breaking down every running foot, square foot, and unit cost before taking any advance.

4. The Zero-Escalation Strategy for Total Financial Protection

To protect our clients' savings, **Asha Interiors** enforces a strict operational protocol: Fixed Brand Binding, Value Engineering for Smart Savings, and a Two-Stage Sign-Off Process.
